Southern Ontario

Product catalogue

Interior doors, trim and door hardware for multiplex, rental and townhome builders across Southern Ontario.

October 2026 edition · premierbp.ca

About Premier

Every interior door and trim piece for your build, on one quote.

Premier Building Products supplies factory-primed interior doors, matching trim and door hardware to multiplex, purpose-built rental and townhome builders across Southern Ontario. We quote the whole package for a building at once, broken out per unit type, so the number matches how the project is budgeted and financed.

Built for repeat units

One style and one trim profile across every suite keeps orders simple, and your styles stay on file so later phases match the first.

Made to order

Every door and trim run is made to your confirmed specs: size, core, slab or prehung, handing and profile. Custom sizes and designs on request.

How ordering works

1. Send your plans

Floor plans, a door schedule or rough counts. We take off the casing and baseboard footage.

2. Get one quote

Broken out by unit type, door, jamb and trim run, so you can check it against your takeoff.

3. Confirm the specs

Style, core, slab or prehung, handing and trim profile. A deposit releases the order to production.

4. Delivery

On pallets to your site or yard. Your quote includes an estimated delivery window.

What's inside

Interior doors	04
51 models: moulded, Shaker, flush and specialty	
Trim and mouldings	12
27 profiles: casing, baseboard, jambs, crown, shoe	
Door hardware	17
Levers, hinges, door stops and barn kit	
Samples and ordering	20
Sample kits, what to send for a quote	

01

Interior doors

51 models in four families: moulded panel, true stile-and-rail Shaker, flush and grooved, and double, sliding, barn and bifold. Every door is made to order and factory primed.

Specifications

Door options

Every model on the following pages can be built with any of these options. We confirm the exact specification on your quote.

Option	What you can specify
Standard sizes	24", 28", 30", 32" and 36" wide × 80" high × 1-3/8" thick
Custom sizes	Widths from about 12" to 39", heights from about 75" to 118", thicknesses from 1" to 2"
Core	Honeycomb, tubular particleboard, solid particleboard or solid wood
Internal frame	LVL, solid pine or finger-jointed pine
Moulded panel profile	Bevelled, cove-and-bead or double-step
Shaker sticking	Square edge, bead-and-cove or two-step
Flush grooves	U, square or V groove; 4, 5 or 6 mm MDF skin; custom groove layouts
Finish	Factory white primer, ready for paint. PU, UV or water-based paint finishes on request
Supplied as	Slab, or prehung in a 4-9/16" finger-jointed pine jamb with hinges set. Other jamb widths made to order
To quote, send	Door counts by width, style, core, slab or prehung, handing, and jamb width if walls aren't 2×4

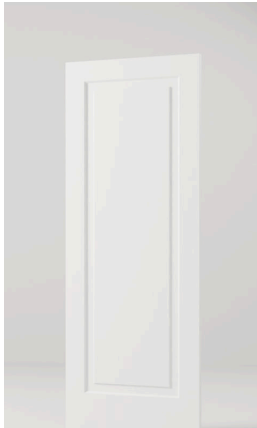

Standard widths and typical use

Slab width	Typical use
24"	Linen closets, small closets, powder rooms
28"	Bathrooms, closets
30"	Bedrooms, bathrooms
32"	Bedrooms, main hallways
36"	Accessible suites, wide openings

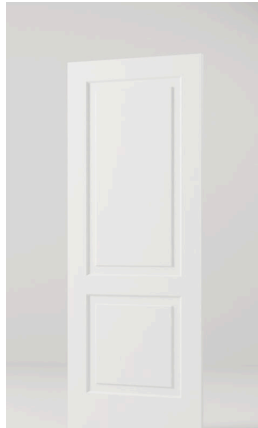

Interior doors

Moulded panel doors

Raised-panel designs pressed into moulded MDF skins. The economical choice for buildings that need hundreds of doors.

**MD001****1-Panel Flat Top**

One tall raised panel. A clean traditional door that suits almost any trim package.

**MD002****2-Panel Square Top**

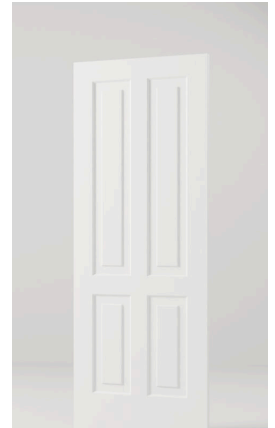

A tall upper panel over a shorter lower panel. The standard builder 2-panel.

**MD003****2-Panel Camber Top**

The upper panel rises to a gentle curve, over a square lower panel.

**MD004****3-Panel Craftsman**

One wide top panel over two tall vertical panels, in the craftsman style.

**MD005****4-Panel Square**

Two tall upper panels over two short lower panels.

**MD006****6-Panel Colonist**

The classic six-panel layout, still the most specified traditional door in North America.

**MD007****2-Panel Round Arch**

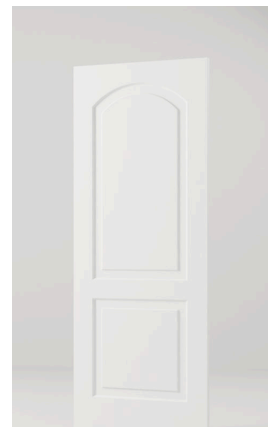

A full round arch tops the upper panel, over a square lower panel.

**MD008****5-Panel Horizontal**

Five stacked raised panels. A moulded alternative to a 5-panel Shaker.

**MD009****2-Panel Cathedral**

A cathedral arch with square shoulders over a square lower panel.

**MD010****2-Panel Arch Plank**

Arched upper and square lower panels, both with vertical V-plank grooves, for a farmhouse look.

Interior doors

Moulded panel doors (continued)

**MD011****2-Panel Scalloped**

Two raised panels with decorative scalloped corners.

**MD012****3-Panel Oval**

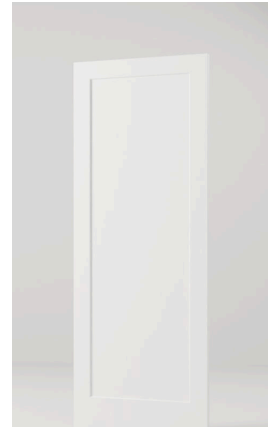

A tall oval centre panel over two short vertical panels.

**MD013****4-Panel Cathedral**

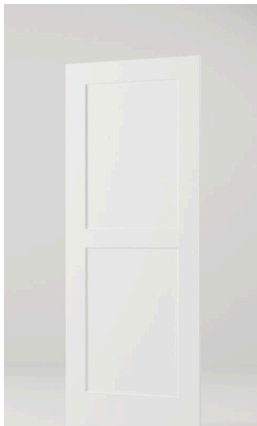

Two arched upper panels over two square lower panels.

**MD014****4-Panel Horizontal**

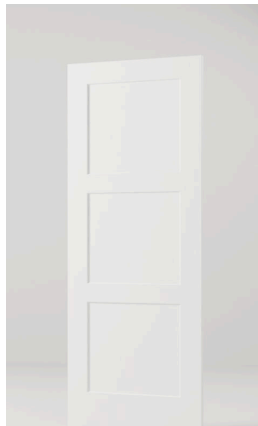

Four stacked horizontal raised panels.

**MD015****1-Panel Shaker, Moulded**

One flat recessed panel with a crisp Shaker profile, at a moulded-door price.

**MD016****2-Panel Even, Shaker Profile**

Two equal flat panels with a Shaker-style moulded profile.

**MD017****3-Panel Even, Shaker Profile**

Three equal horizontal flat panels with a Shaker-style profile.

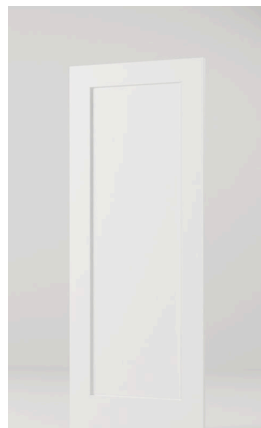

**MD018****5-Panel Horizontal, Shaker Profile**

Five flat horizontal panels with a Shaker-style moulded profile.

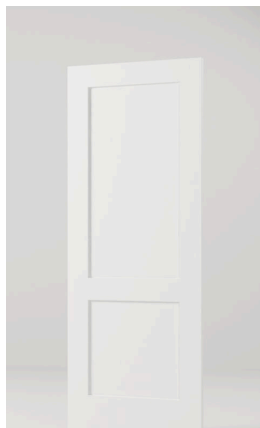

Interior doors

Shaker doors

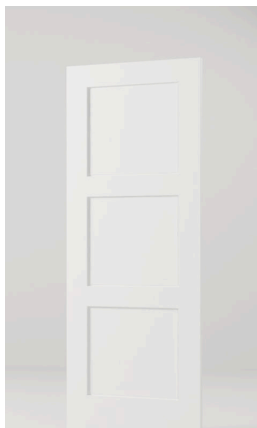

True stile-and-rail construction with flat MDF panels over a solid core. Heavier, quieter and the premium tier.

**SK001****1-Panel Shaker, Stile & Rail**

One flat recessed panel set in a square-edged stile-and-rail frame.

**SK002****2-Panel Shaker**

A taller upper panel over a shorter lower panel. The most specified modern builder door.

**SK003****3-Panel Shaker**

Three equal flat horizontal panels.

**SK004****3-Panel Craftsman Shaker**

One wide top panel over two tall vertical panels.

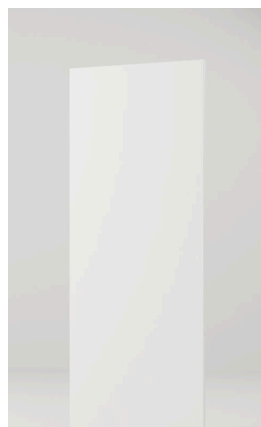

**SK005****5-Panel Shaker**

Five equal flat horizontal panels, a modern farmhouse favourite.

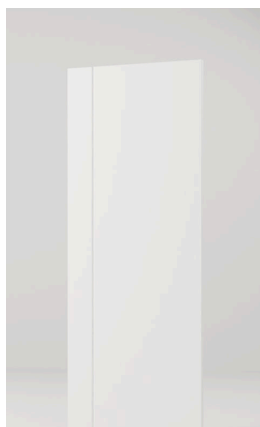

Interior doors

Flush and grooved doors

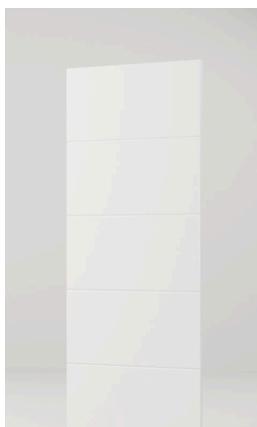

Smooth MDF faces with routed groove patterns, including the Berkley. Modern and easy to clean.

**GF001****Flush Plain**

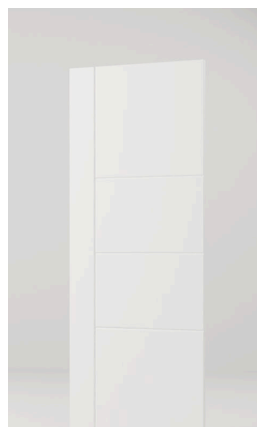

A smooth, flat face with no grooves. The most minimal door in the range.

**GF002****Flush 1-Vertical**

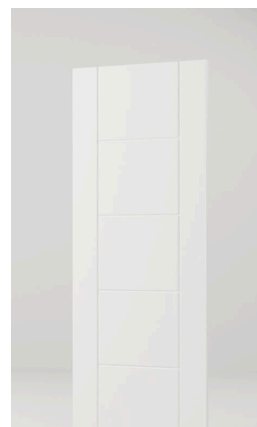

A single vertical groove set in from the hinge edge.

**GF003****Berkley**

Four full-width horizontal grooves that split the face into five equal bands.

**GF004****Flush Ladder**

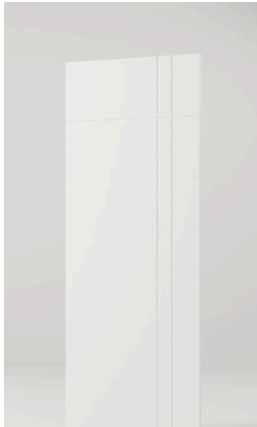

One vertical groove with three horizontal grooves running off it.

**GF005****Flush Centre Ladder**

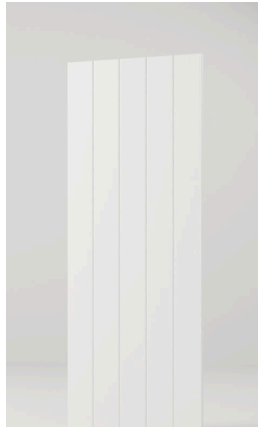

Two vertical grooves framing four horizontal grooves.

Interior doors

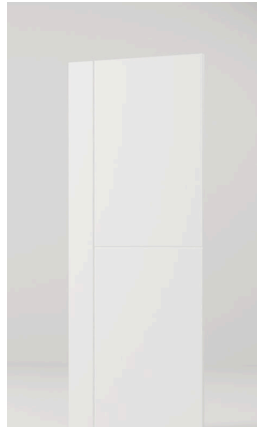

Flush and grooved doors (continued)

**GF006****Flush Transom**

A horizontal groove near the top, crossed by two vertical grooves on the lock side.

**GF007****Flush 4-Vertical Plank**

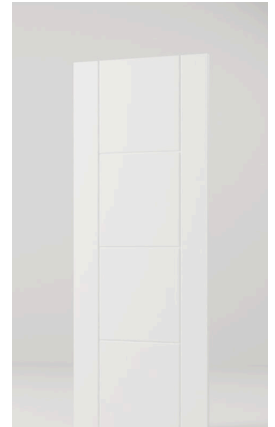

Four vertical grooves that give the look of five boards.

**GF008****Flush Offset Split**

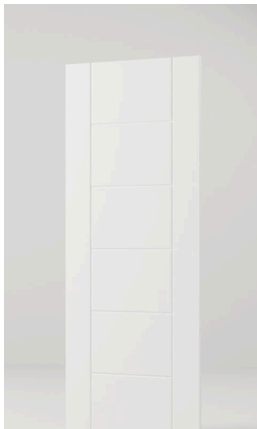

One vertical groove with a single horizontal groove at mid-height.

**GF009****Flush Ladder Low**

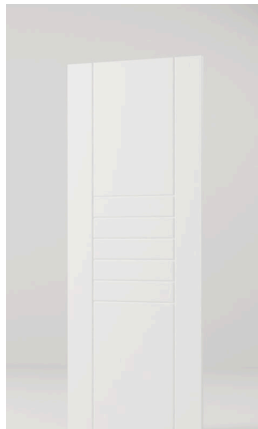

One vertical groove with three horizontal grooves set in the lower half.

**GF010****Flush Centre 3-Bar**

Two vertical grooves framing three horizontal grooves.

**GF011****Flush Centre 5-Bar**

Two vertical grooves framing five horizontal grooves.

**GF012****Flush Centre 6-Bar**

Two vertical grooves framing six closely spaced horizontal grooves.

Interior doors

Double doors

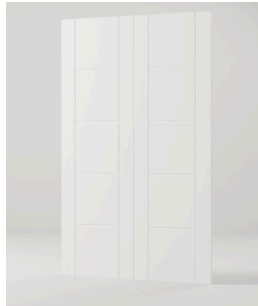

Matched pairs for primary bedrooms, dens, dining rooms and wide closets.

DB001

Double 2-Panel

A matched pair of 2-panel doors for wide openings.

DB002

Double Grooved Flush

A pair of flush doors with a matching groove grid across both leaves.

DB003

Double Arch Plank

A pair of arch-top doors with V-plank panels.

DB004

Double 6-Panel

A pair of six-panel colonist doors.

Interior doors

Sliding bypass doors

Two leaves on an overhead track for reach-in closets.

SD001

Bypass 1-Panel

Two sliding leaves with a single panel each, for reach-in closets.

SD002

Bypass 6-Panel

Two sliding six-panel leaves.

SD003

Bypass 5-Panel

Two sliding leaves with five horizontal panels each.

SD004

Bypass 2-Panel

Two sliding 2-panel leaves.

Interior doors

Barn doors

A single slab on a wall-mounted track.

BR001

Barn 2-Panel

A surface-mounted barn door with a 2-panel face.

BR002

Barn 1-Panel

A surface-mounted barn door with one tall panel.

BR003

Barn Full Plank

A full-height vertical plank face.

BR004

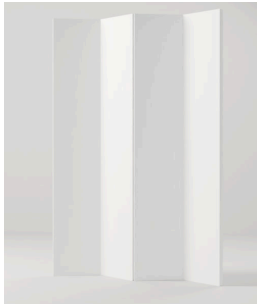

Barn Plank over Panel

Vertical planks above a flat lower panel.

Interior doors

Bifold doors

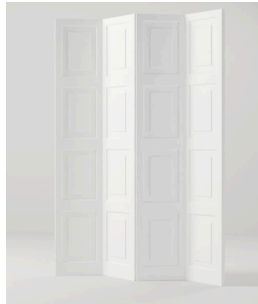

Folding leaves that open the full closet width.

BF001

Bifold Flush

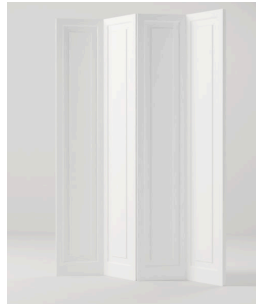

Bifold closet doors with smooth flush leaves.

BF002

Bifold 4-Panel

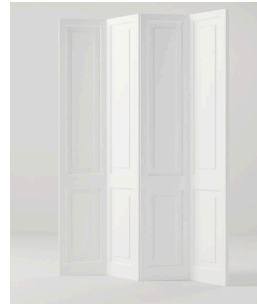

Bifold closet doors with four raised panels on each leaf.

BF003

Bifold 1-Panel

Bifold closet doors with one tall panel on each leaf.

BF004

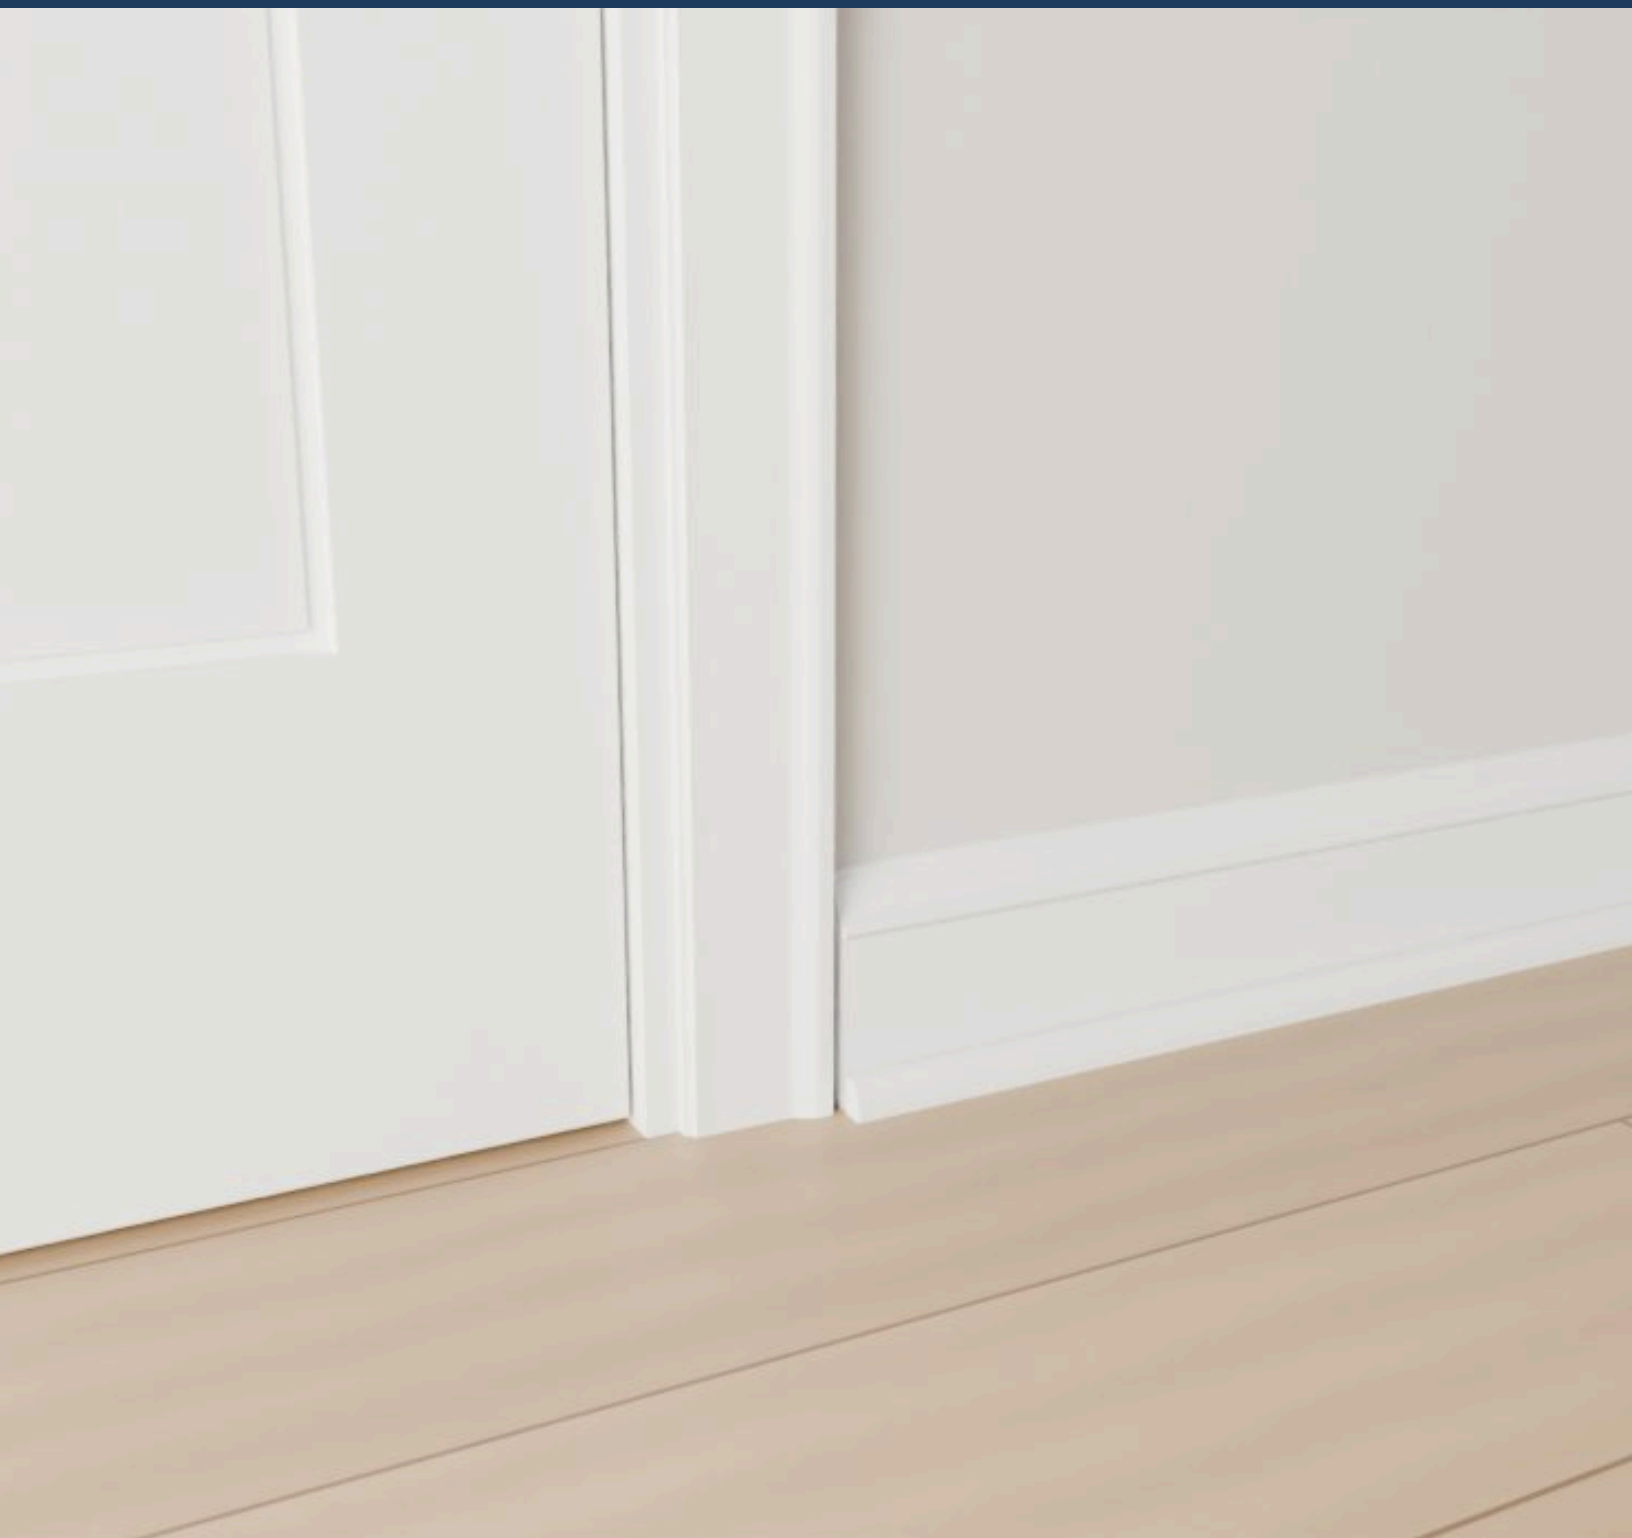

Bifold 2-Panel

Bifold closet doors with two panels on each leaf.

02

Trim and mouldings

27 primed profiles: door casing, baseboard, jambs, crown and shoe.
Order them with your doors and every unit finishes the same.

Specifications

Trim options

All profiles are factory primed to the same white as our doors, so painters work with one surface.

Option	What you can specify
Material	MDF or finger-jointed pine (solid wood)
Finish	Factory primed white, matching the doors
Casing	Ordered by the opening, one set per side, or by the linear foot
Baseboard and shoe	Ordered by the linear foot. We can take the footage off your floor plans
Jambs	4-9/16" for 2×4 walls with 1/2" drywall; other widths made to order
Custom profiles	Send a drawing, photo or sample and we'll have the profile made to match
Sizes	Exact profile dimensions are confirmed on your quote

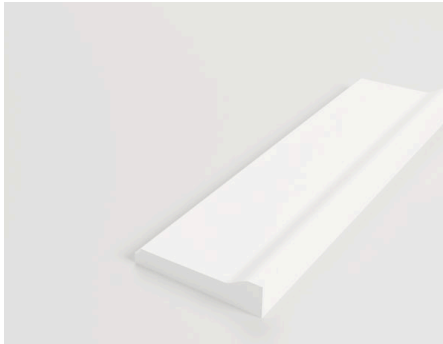

Suggested pairings

Look	Door	Casing	Baseboard
Traditional	MD002 2-Panel Square Top	DC001 Colonial	BB001 Colonial Ogee
Classic colonial	MD006 6-Panel Colonist	DC009 Ogee	BB003 Ornate Colonial
Transitional	SK002 2-Panel Shaker	DC008 Tapered Flat	BB006 Bevel Top
Modern	GF003 Berkley	DC004 Square Flat	BB009 Square Edge

Trim and mouldings

Door casing

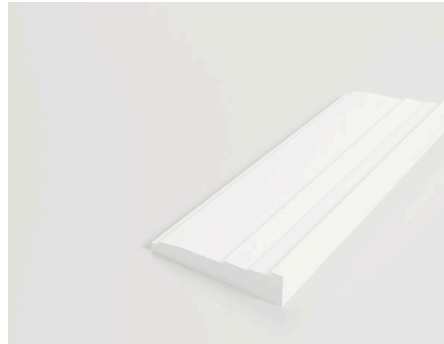

Frames each opening and covers the joint between jamb and drywall.

DC001

Colonial Casing

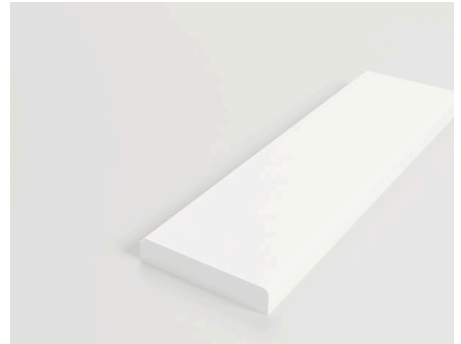

A stepped colonial profile, thicker at the outside edge.

DC002

Stepped Ornate Casing

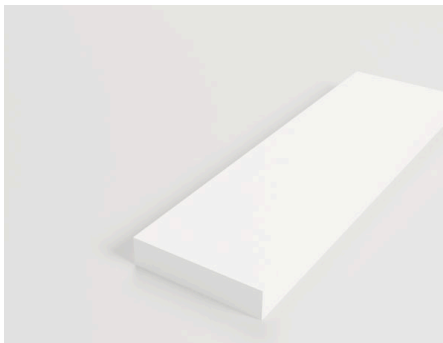

A multi-step profile with cove and bead details.

DC003

Eased Flat Casing

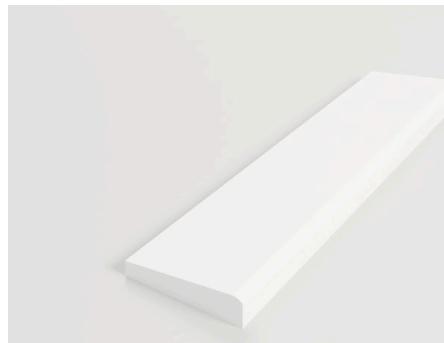

Flat stock with softly rounded edges, for modern interiors.

DC004

Square Flat Casing

Plain square-edged flat stock (S4S).

DC005

Ranch Casing

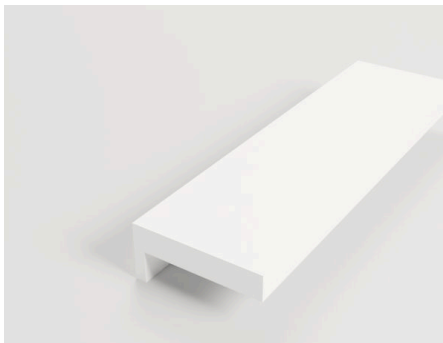

A low, curved clamshell profile that tapers toward the opening.

DC006

Ornate Bead Casing

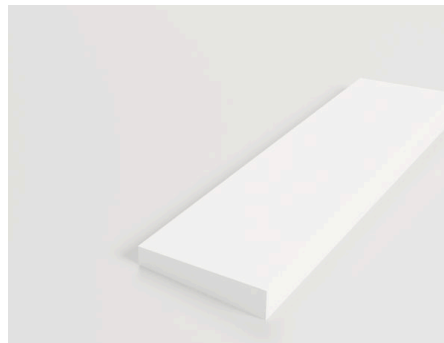

A heavier colonial profile with two bead details.

DC007

L-Profile Casing

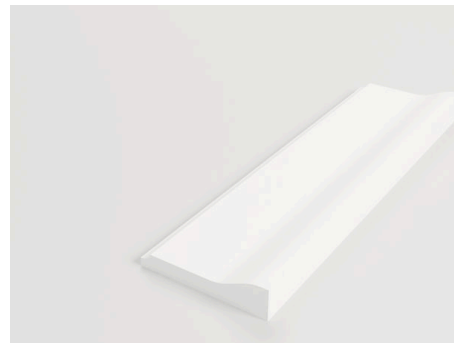

An L-shaped casing that wraps the edge of the jamb.

DC008

Tapered Flat Casing

Flat casing that tapers in thickness toward the opening.

DC009

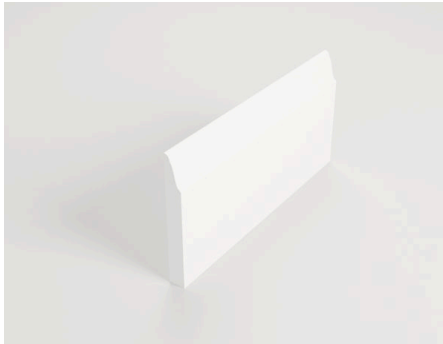

Ogee Casing

A classic ogee face that steps down toward the opening.

Trim and mouldings

Baseboard

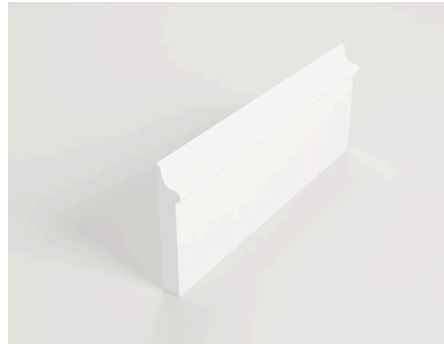

Covers the joint where the wall meets the floor.

BB001

Colonial Ogee Base

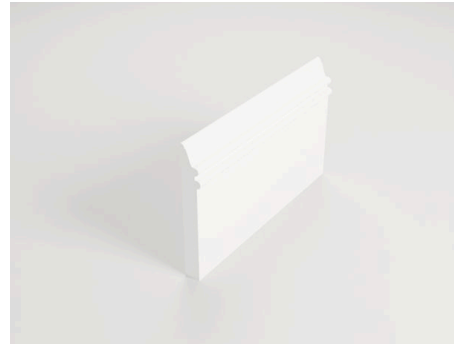

A stepped face below a small ogee top.

BB002

Cove and Bead Base

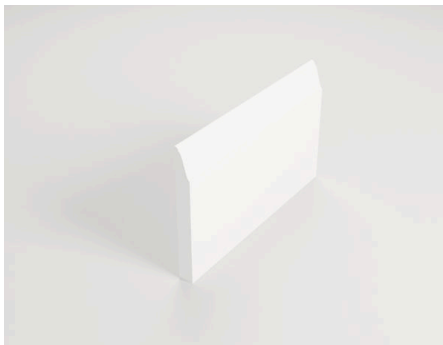

A cove top over a single bead.

BB003

Ornate Colonial Base

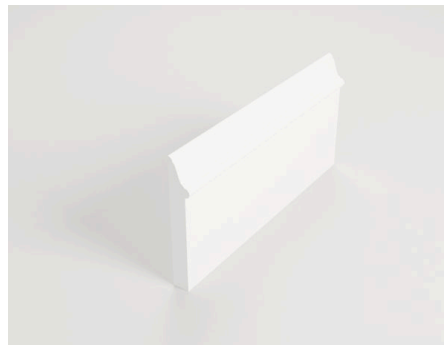

A tall base with a double bead under an ogee top.

BB004

Tall Ogee Base

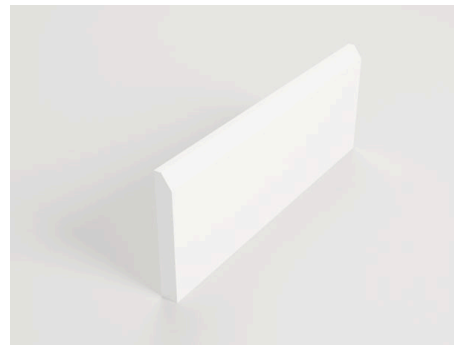

A large ogee top on a tall flat face.

BB005

Ogee and Bead Base

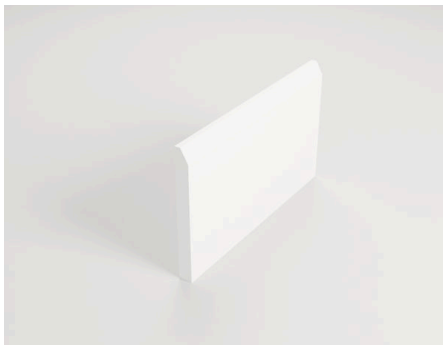

An ogee top above a bead line.

BB006

Bevel Top Base

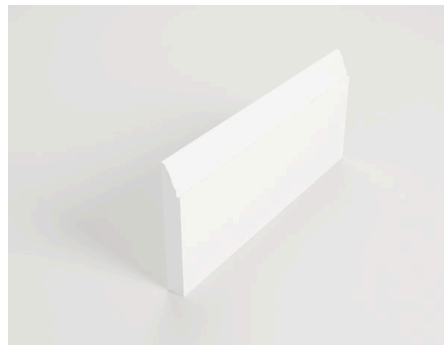

A single angled bevel at the top, for modern interiors.

BB007

Tall Bevel Base

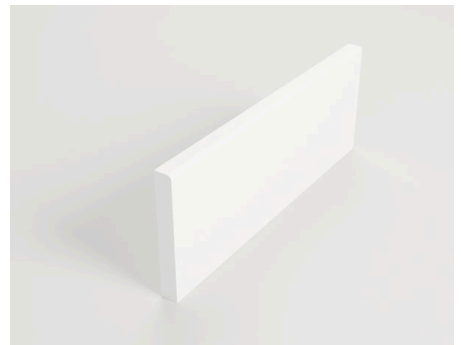

A tall modern base with a chamfered top.

BB008

Step Ogee Base

A stepped ogee top on a flat face.

BB009

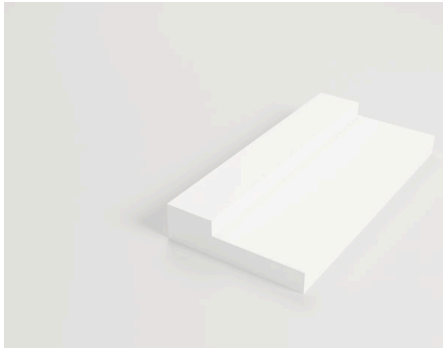

Square Edge Base

Flat stock with an eased top edge. The most minimal base.

Trim and mouldings

Jambs, crown and shoe

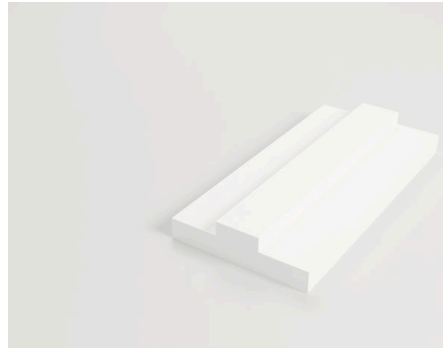

Door jambs, crown moulding for wall-to-ceiling joints, and shoe moulding at the floor.

DJ001

Rebated Jamb

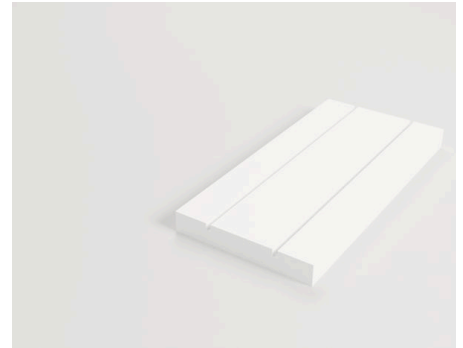

A jamb with the door stop milled in as a rebate.

DJ002

Centre-Stop Jamb

A jamb with a stop running down the centre.

DJ003

Flat Kerfed Jamb

A flat jamb with kerfs for an applied stop and weatherstrip.

CR001

Cove Crown

A simple concave cove.

CR002

Ogee Crown

The classic S-curve crown.

CR003

Ornate Crown

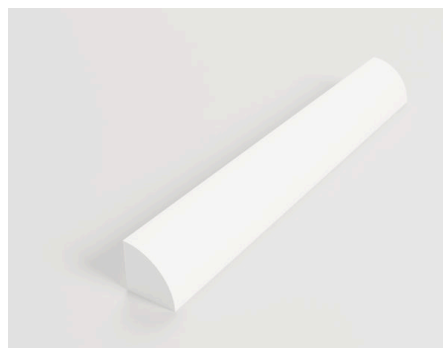

An ogee crown with bead and step details.

SE001

Quarter Round

The standard quarter round.

SE002

Quarter Round, Large

A larger-radius quarter round for bigger floor gaps.

SE003

Base Shoe

A taller, flat-backed shoe moulding.

03

Door hardware

Lever locksets, hinges, door stops and barn door kits, supplied with your doors so every opening arrives complete.

Door hardware

Lever locksets

Nine designs in matte black, polished chrome and satin nickel. Each is available as a passage or privacy set.

A8815

Square Lever, Matte Black

A straight square-section lever on a round rose, in matte black.

Heavy-duty · Passage or privacy

A8807

Square Lever, Polished Chrome

The same square lever in polished chrome.

Heavy-duty · Passage or privacy

A8835

Square Lever on Square Rose, Matte Black

A square lever on a square rose for a crisp modern look.

Heavy-duty · Passage or privacy

A8809-1

Round Bar Lever, Satin Nickel

A round bar lever on a round rose in satin nickel.

Heavy-duty · Passage or privacy

A8809-2

Wave Lever, Satin Nickel

A gently curved wave lever in satin nickel.

Heavy-duty · Passage or privacy

A8809-3

Round Bar Lever, Matte Black

The round bar lever in matte black.

Heavy-duty · Passage or privacy

9161

Flat Lever, Matte Black

A slim flat lever with an auto-release privacy function.

Auto-release · Passage or privacy

9165

Square Lever, Matte Black

A square lever with an auto-release privacy function.

Auto-release · Passage or privacy

9162

Curved Lever, Matte Black

A softly curved lever with an auto-release privacy function.

Auto-release · Passage or privacy

Door hardware

Hinges, stops and barn kit

Hinges for slab doors and site-built frames, floor-mounted stops, and the hardware kit for our barn doors.

**HG-BUTT****Flush Butterfly Hinge**

A flush hinge where one leaf nests inside the other, so no mortise is needed.

**HG-RAD****Residential Butt Hinge, Radius Corner**

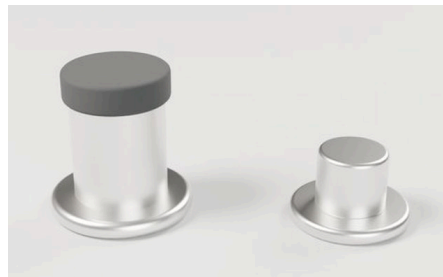

A residential butt hinge with rounded corners that match router-cut mortises.

**HG-SQ****Butt Hinge, Square Corner**

A butt hinge with square corners for chiselled mortises.

**DS-MAG1****Magnetic Door Stop, Gunmetal**

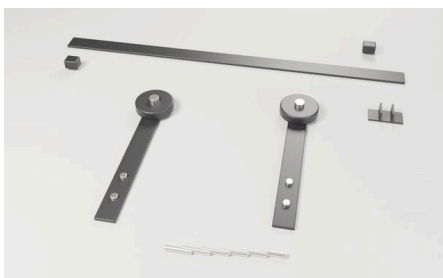

A floor-mounted magnetic stop that holds the door open, in a dark gunmetal finish.

**DS-MAG2****Magnetic Door Stop, Satin Nickel**

The same magnetic stop and holder in satin nickel.

**DS-POST****Post Door Stop, Bronze**

A floor-mounted post stop with a rubber bumper, in bronze.

**BK-KIT****Barn Door Hardware Kit**

Flat steel track, two hangers with rollers, end stops, a floor guide and mounting fasteners, in matte black.

Samples and quotes

See it before you order

Order a sample kit with a corner cut from the door style you choose, plus pieces of your casing and baseboard. It's \$25 plus HST, shipped free within Ontario, and the \$25 comes off your first paid order placed within 90 days.
